VDL coins represent advertising fees that have been paid by advertisers, which ensures that every VDL coin holds its true value.

It is anticipated that by 2023, there will be over one million registered users and the number will increase 100-1000 times!

Revenue introduction – Direct Referral

The platform has a referral program that rewards users for referring more people (Direct-Referral). Consequently, the reward amount increases gradually from 10% to 30% based on the number of direct referrals.

Gen Level	Gen Ad Revenue	Coin holding
Generation 1	15%	0.1%
Generation 2	5%	0.1%
Generation 3	3%	0.1%

Note: In terms of generation revenue, we are referring to the income that is generated from all three generations of Star Rated Viewers by watching ad video and holding VDL coin underneath each referrer.

Revenue introduction – Syndicate Revenue

Syndicate level	Number of Viewers	Business Volume	Daily ad revenue	Daily coin holding revenue
Junior	>10 Direct Referral	>7,000 \$	3%	0.1%

Special notes:

1. The direct referral reward is calculated by 10% when the direct referral subscribes for the second time (the star level of the referrer cannot be lower than the direct referral's level, otherwise the reward will be pending for seven days). 2. Revenue generated above the revenue limit of the purchased package will be placed in pending status for 7 days. In order to claim the pending rewards, viewers must repurchase the package.
